Wagon masters Report

By: Dave Kyte & Don Bake

Well, our first club dig to Iosepa turned out to be a success. There were 15 club members and 2 children to show up on Saturday. On Sunday, 4 people returned to enjoy the weather.

The "Goose" found an 1891 seated dime, a 1901 Indian Head and a 1919 mercury dime. Don Bake found a real cool 1932 Utah Elk tag and a S.L. Union Bar GF a beer or .05 cigar token. Dave Rosinski located an Osterloh's Penny Arcade token and a hand full of jewelry. There was a 1902 Indian Head and numerous wheat cents reported. On Sunday one fortunate fellow found an awesome antique ice skate. Tom Mahoney brought his gatorade, but it went so fast some of us didn't get any!

Our June outing is planned at Clearlake, Utah on June 13th and 14th. This place is fairly close to Salt Lake, but some people may want to camp or get a room in Delta or Orderville to hunt both days. The Clear Lake area has an interesting history from 1881-1938. That's 57 years of lost coins, TOKENS and artifacts to find!!! Cliff Fausett has reportedly found an Oasis token there. There are also other Ghost sites in the area. It could be a real bonanza for us treasure hunters!

Future sites we have talked about include Frisco, Kimberly, Dragon, some places in Nevada, or we are open for suggestions.

Thanks for your support.

CLEAR LAKE

Millard County

Agricultural
Class 2

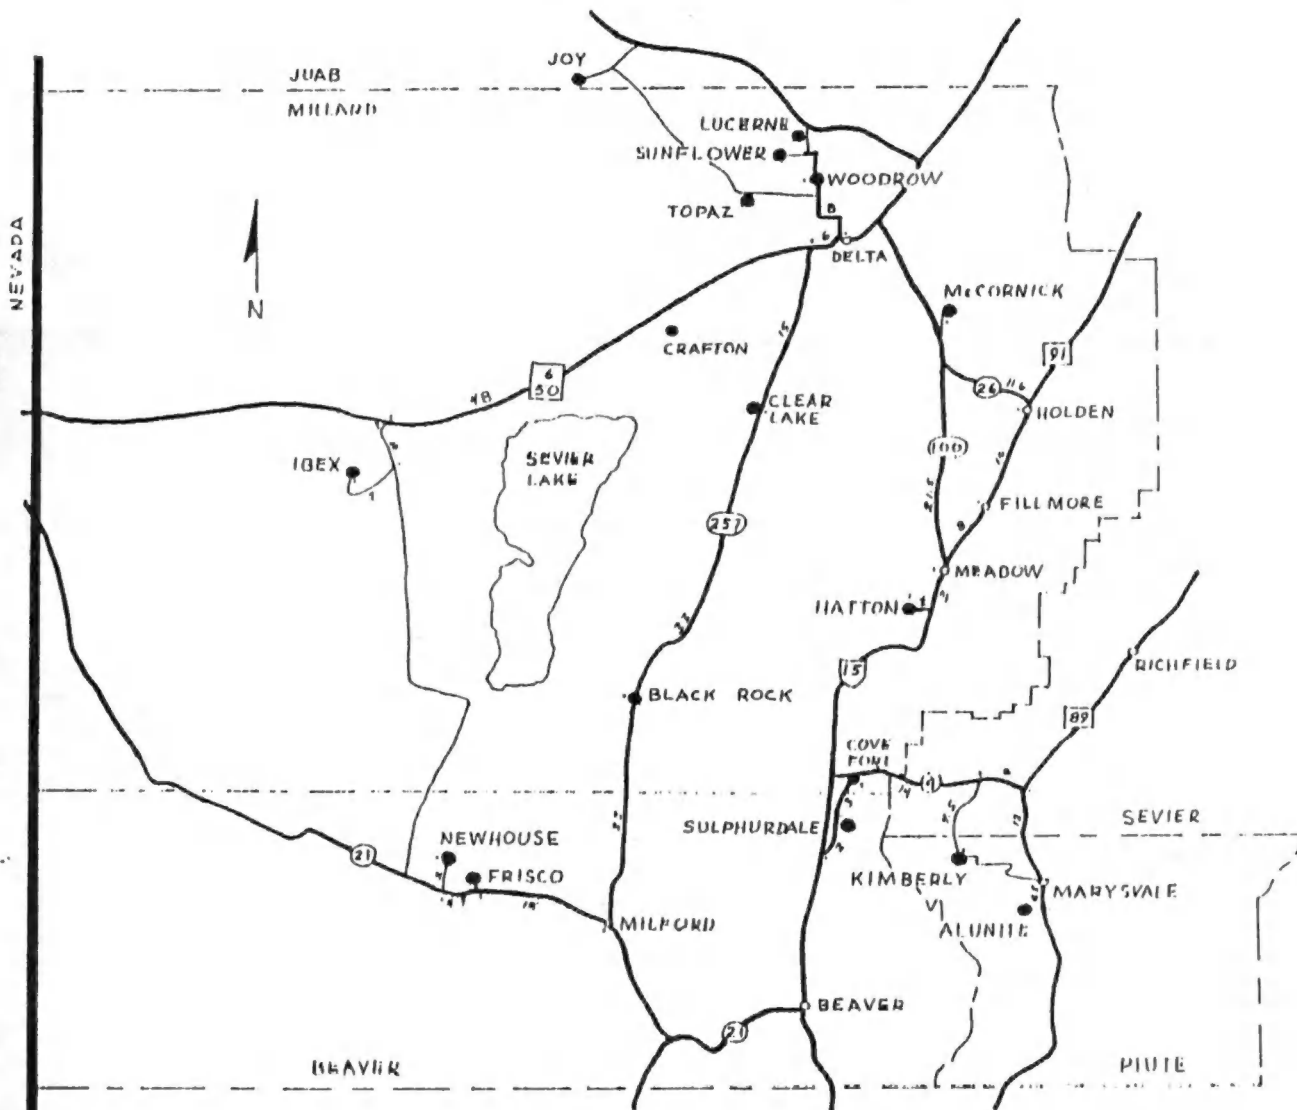

Another non Mormon farming town was settled on the Los Angeles and Salt Lake Railroad in 1897 nineteen miles south of Delta and seven miles west of a natural desert pond called Clear Lake. A canal was dug from the lake to the new town of the same name to supply culinary and irrigation water for the growing community. Ten families lived in town with several more in outlying farms. Alfalfa and grain were staple crops. The canal company offices, a store and hotel were built at the crossroads just west of the tracks. As small as the town was it even had a miniscule newspaper, *The Clear Lake Review*. Much of the farm products shipped from the freight depot came from the

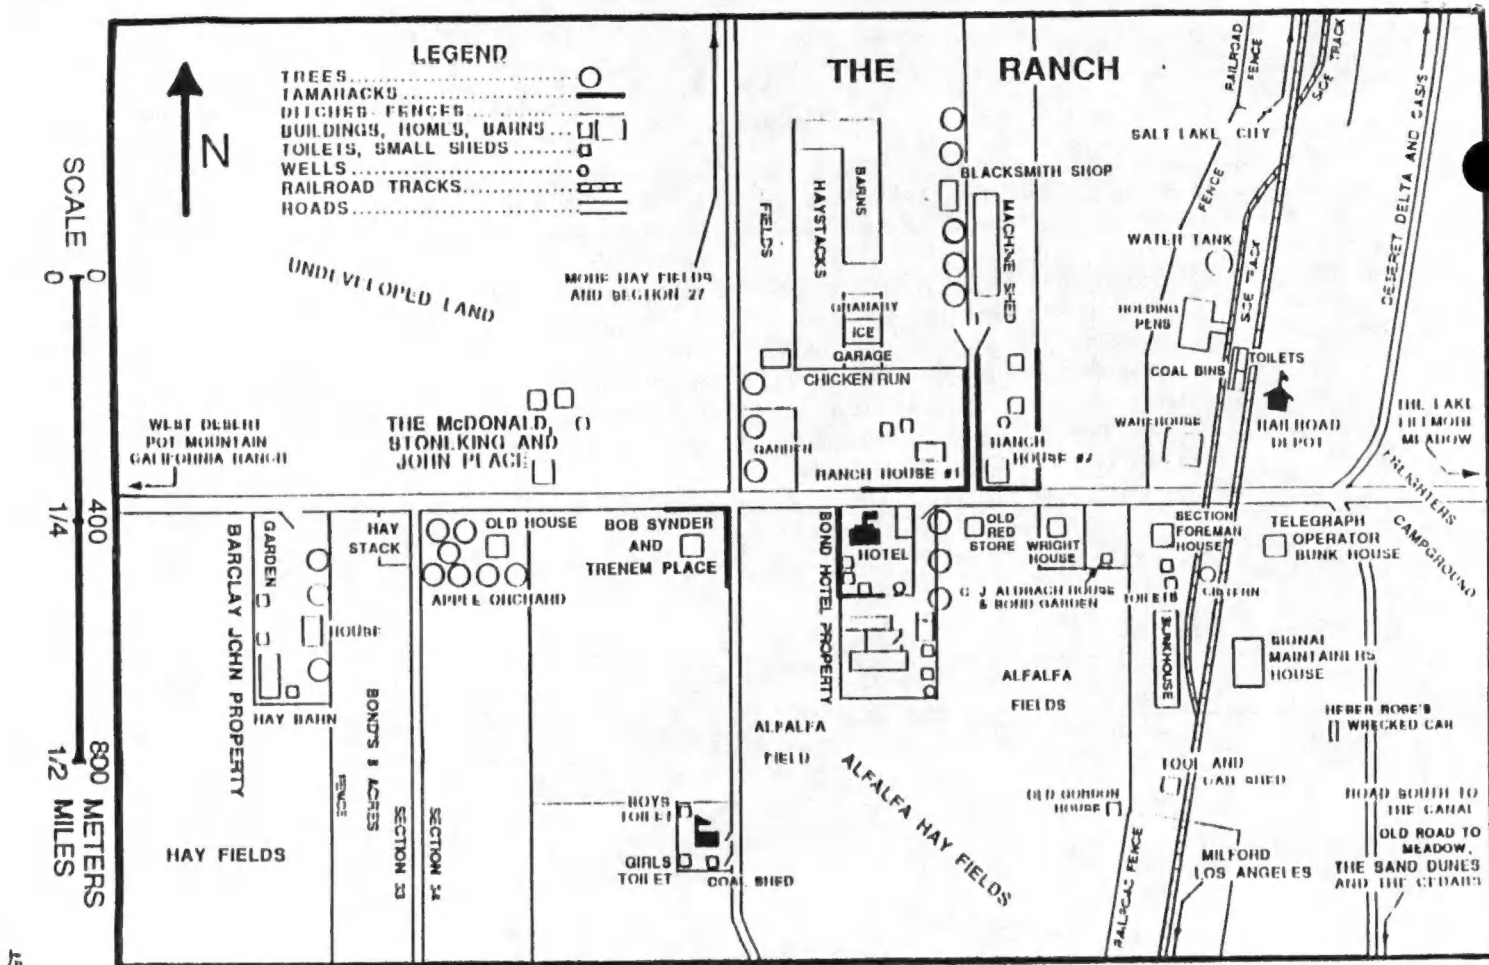

large towns and farms of eastern Millard County.

Most of the settlers had come from the Midwest but the fluctuating water problem was too much to handle and the project failed in the early 1900's. Most of the buildings were taken to Delta, others to Desert and Oasis.

The present site of Clear Lake is at the crossroads on paved State Highway 257 about 15 miles south of U.S. Highway 6-50. Several piles of crumbled concrete chunks and brick plus plot and shrubbery positions show the location of many former buildings.
